

Creativity training/ Professional Development

(1-2 Day training)

In this training, your staff will be trained in the skills of the creative problem solving process, while they grasp an understanding of their creative preferences. This program is designed to integrate creativity throughout your organization. This training will prepare your staff with the tools to navigate challenges and build a creative atmosphere in your workplace.

Integrating creativity into Education

In this professional development series, we will explore how creativity fits in the world of education. This includes innovative teaching tactics that can be integrated in your individual and departmental lesson plans. We will also discover ways to build a creative classroom atmosphere that will connect with various student types. This program will also offer a better understanding of the creative and learning preferences of your students.

Creative Problem Solving Facilitation

In this session, you will initiate the Foursight process in order to solve whatever challenges your organization is facing. You will Clarify challenges, generate ideas, develop them into workable solutions and implement them with an action plan. The challenges and goals are identified by the key decision makers prior to the session.

Understanding the creative preferences of your staff

In this session we will take a deep look into the various steps of the Foursight process while exploring the creative preferences of your staff. This will build a better understanding of your team, allowing you to maximize the overall morale and potential of your organization
